

CSS Project-Based Assignment

30 real-world UI-building tasks · Basic → Intermediate → Advanced

Question 1 (Basic)

Create a simple call-to-action button with padding, a background color, and rounded corners, centered on the page.

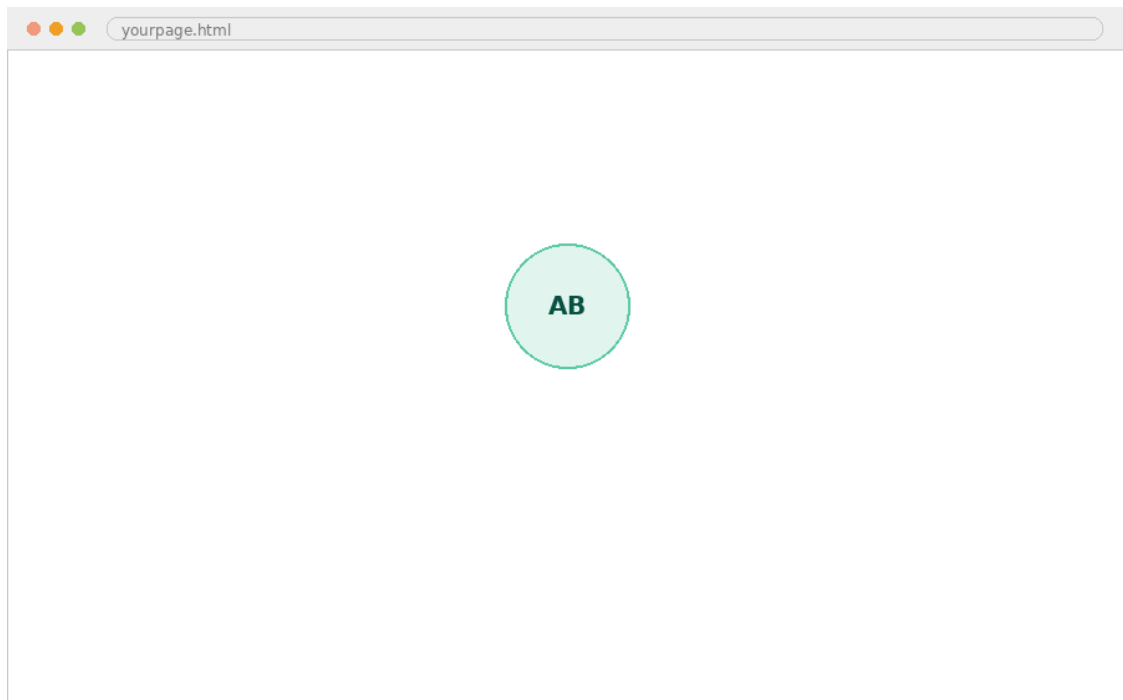

Expected Output

Question 2 (Basic)

Create a profile avatar image that is perfectly circular.

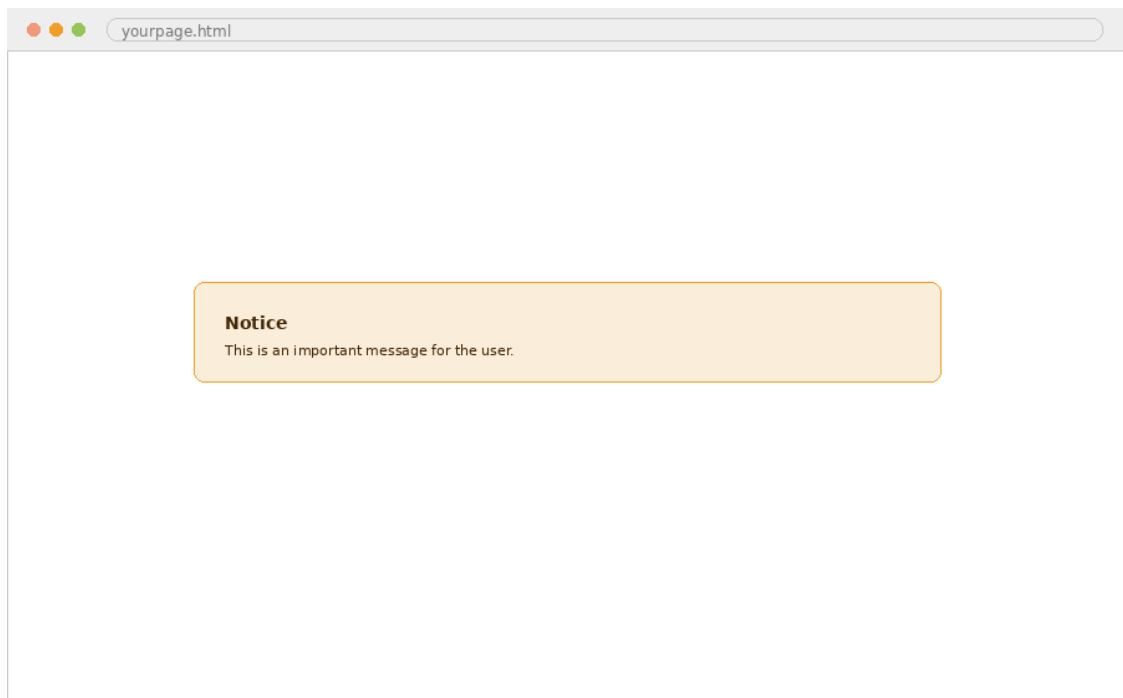

Expected Output

Question 3 (Basic)

Create an alert/notice box with a colored background and padding to display a message.

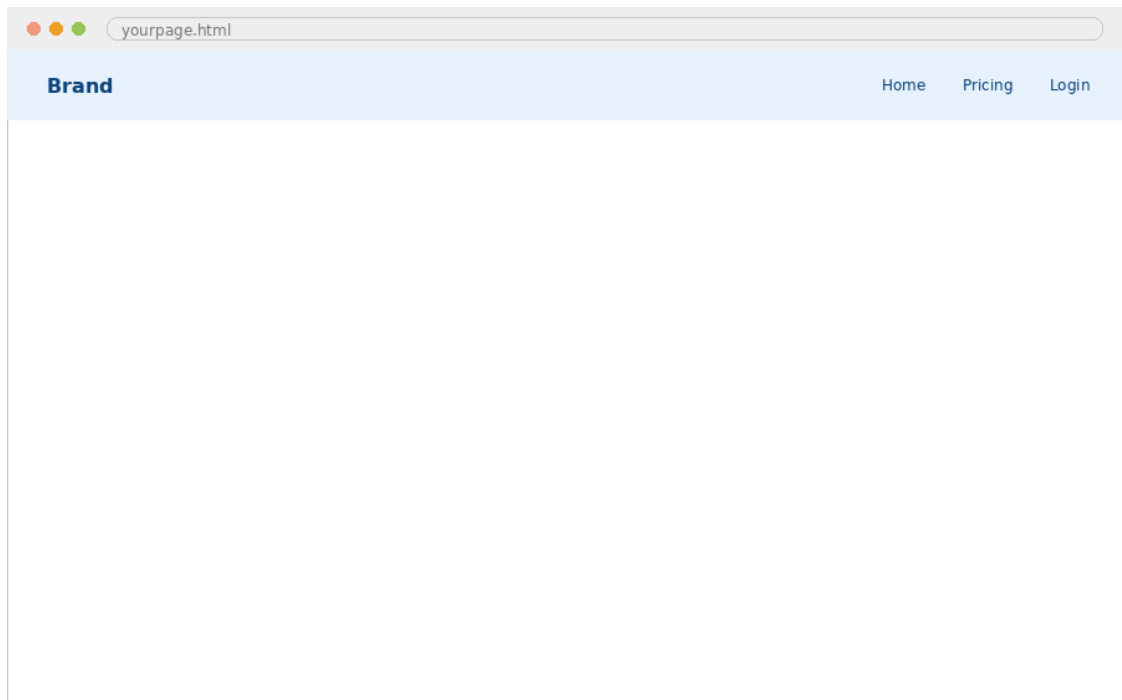

Expected Output

Question 4 (Basic)

Create a horizontal navigation bar with a logo on the left and links displayed inline on the right.

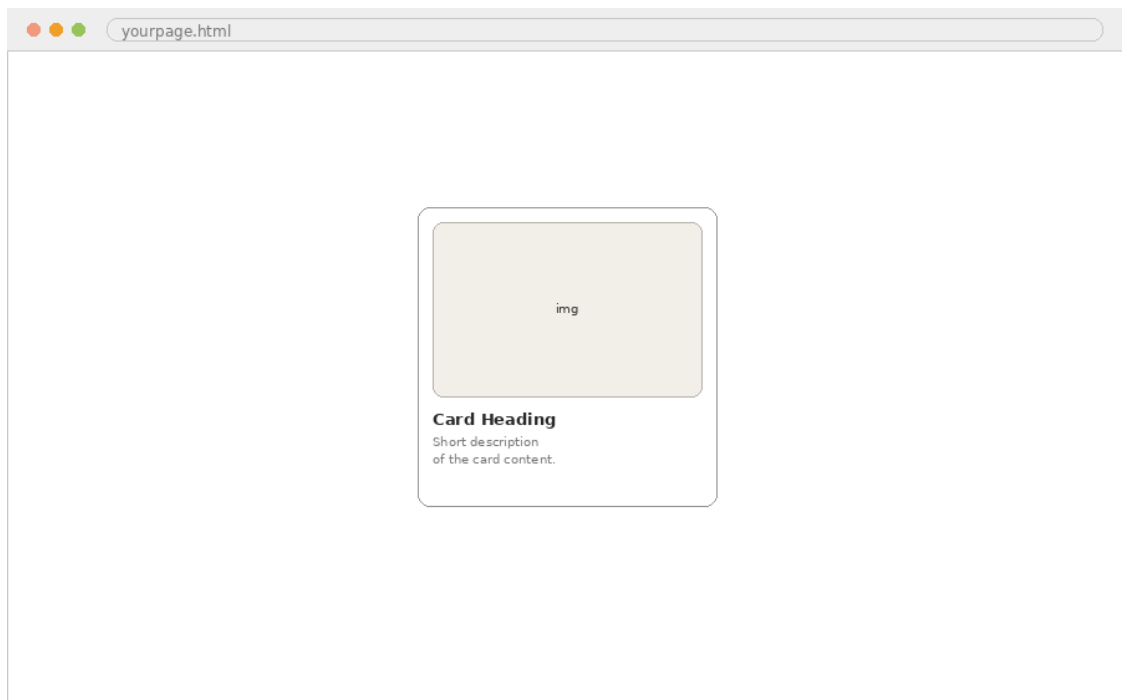

Expected Output

Question 5 (Basic)

Create a simple card with an image placeholder, a heading, and a short description, wrapped in a bordered box with rounded corners and padding.

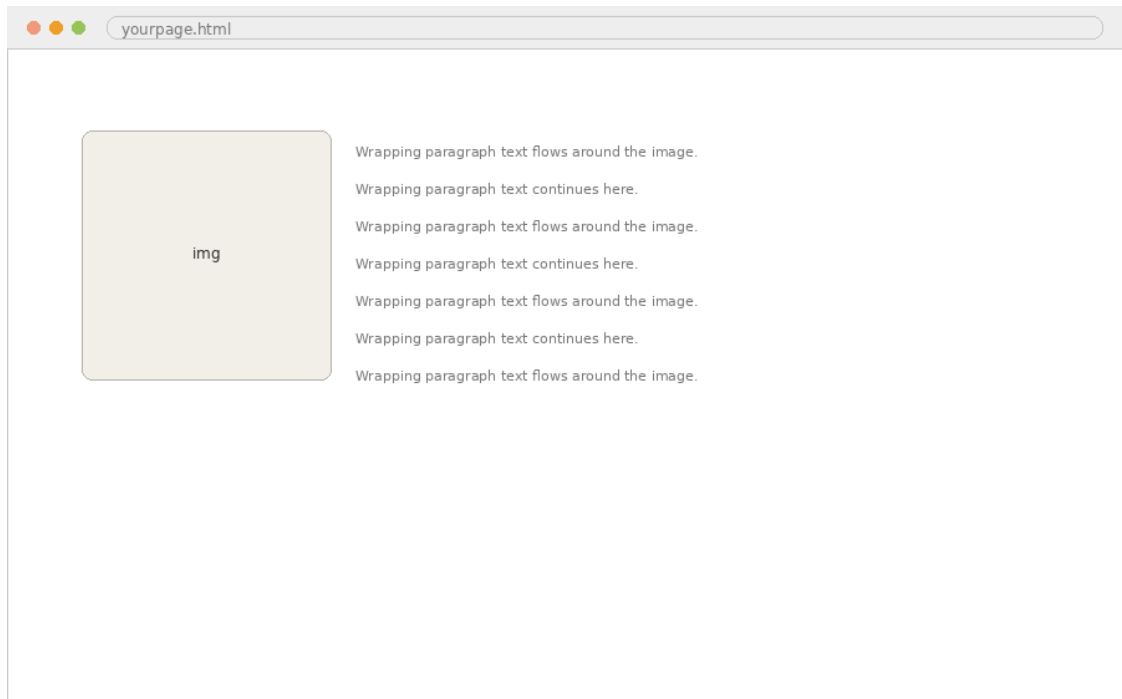

Expected Output

Question 6 (Basic)

Create a two-column layout where an image floats to the left and a paragraph of text wraps around it.

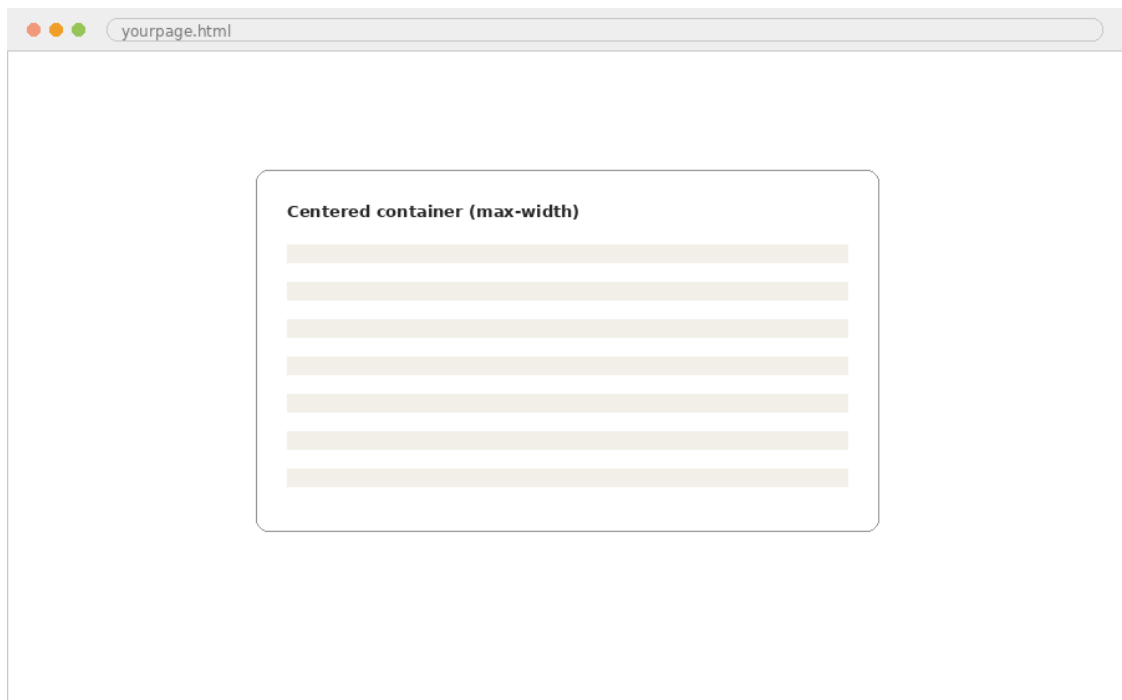

Expected Output

Question 7 (Basic)

Create a centered content container that has a maximum width and stays centered on the page regardless of screen width.

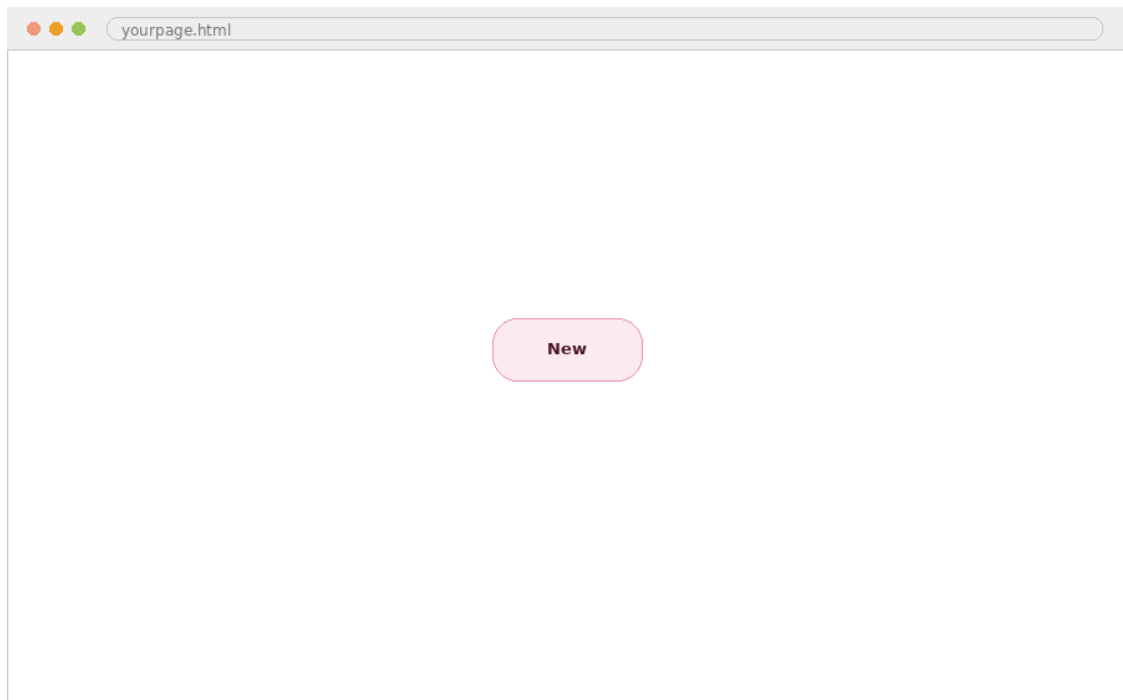

Expected Output

Question 8 (Basic)

Create a colored tag/badge using a background color, padding, and rounded corners.

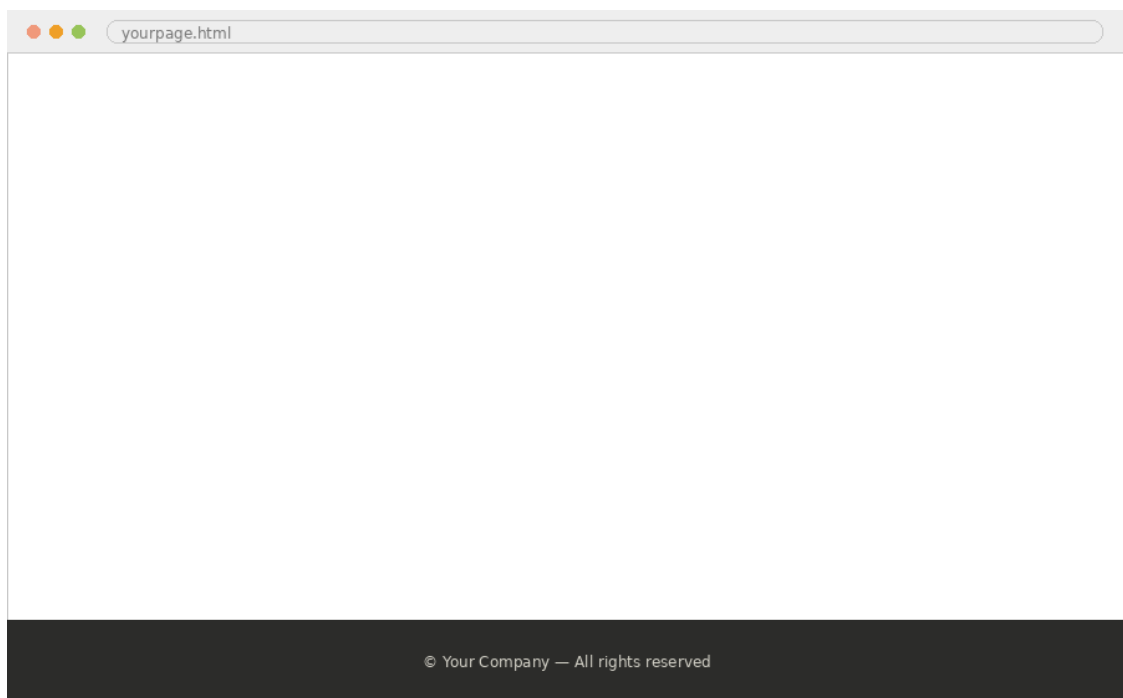

Expected Output

Question 9 (Basic)

Create a simple footer bar that spans the full width of the page with centered text.

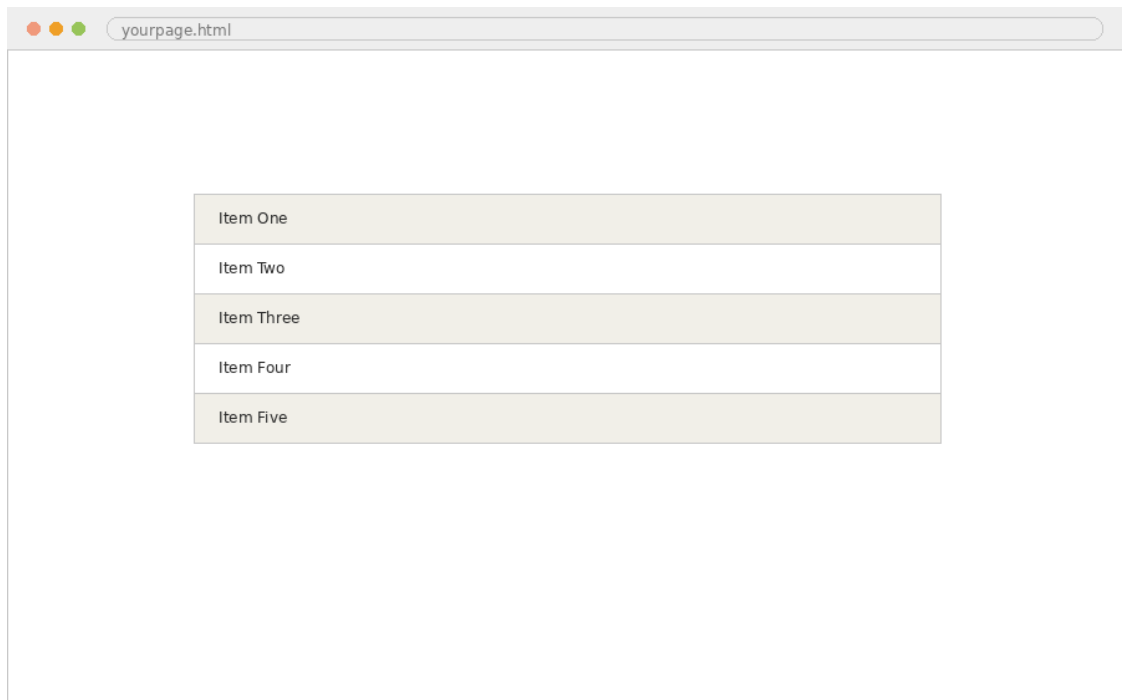

Expected Output

Question 10 (Basic)

Create a bordered list where each row alternates background color.

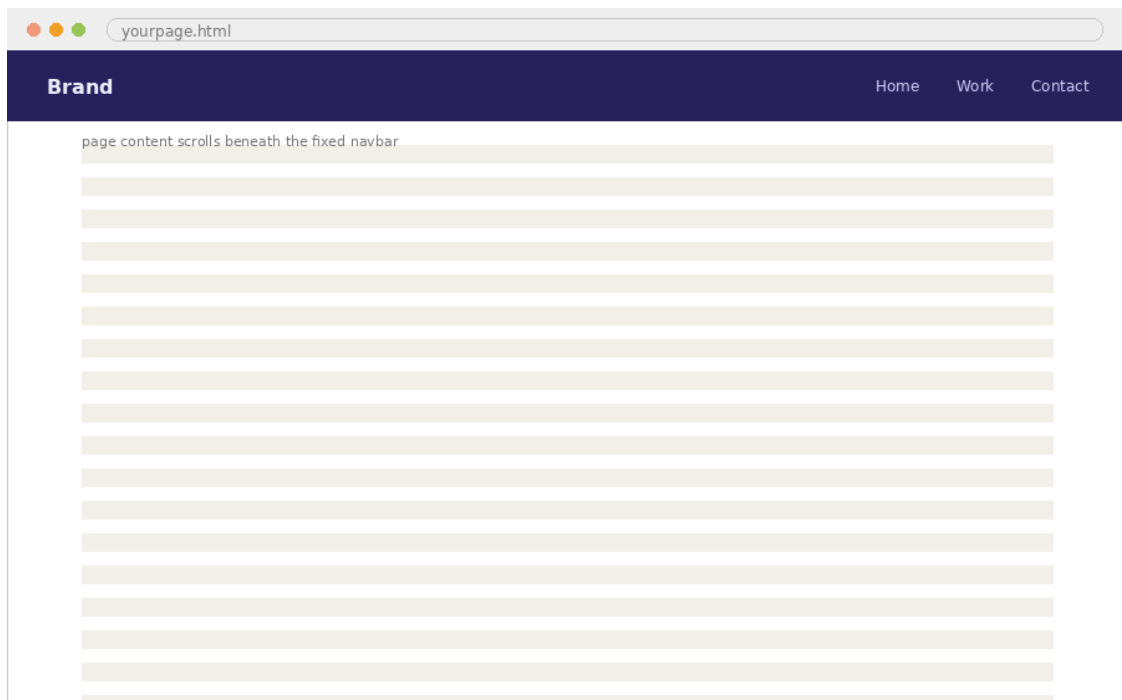

Expected Output

Question 11 (Intermediate)

Create a navigation bar that stays fixed at the top of the page while the rest of the content scrolls beneath it.

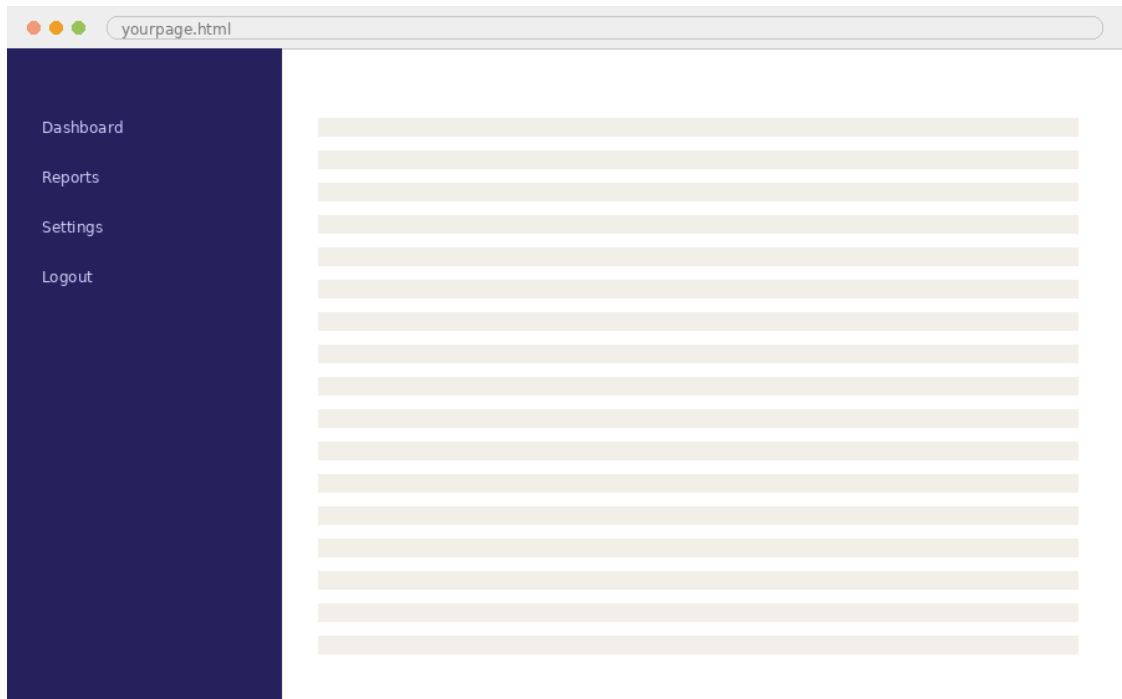

Expected Output

Question 12 (Intermediate)

Create a fixed sidebar menu that stays in place on the left side of the screen while the main content area scrolls independently.

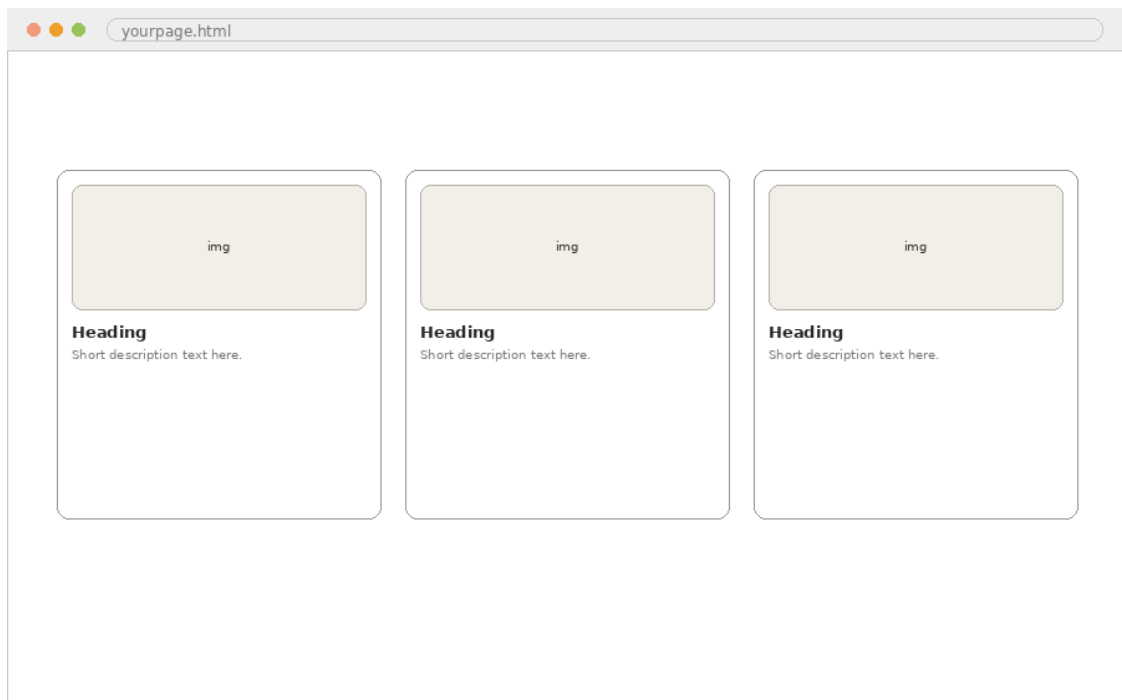

Expected Output

Question 13 (Intermediate)

Create a row of three equally sized cards laid out side by side, each with an image placeholder, heading, and short text.

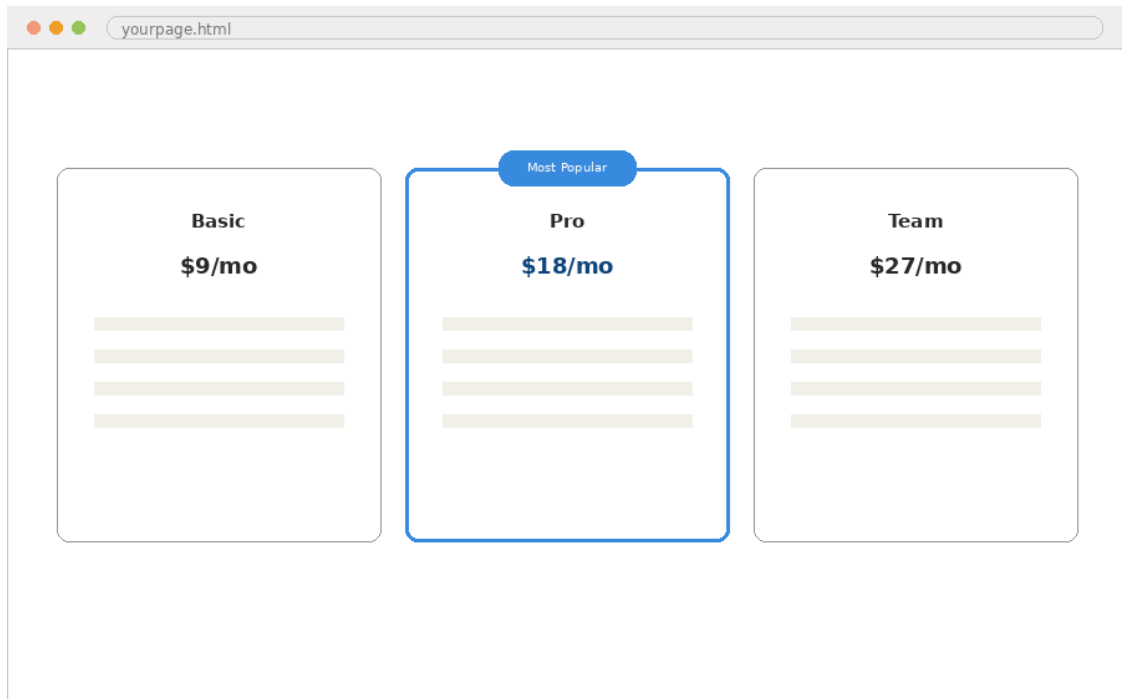

Expected Output

Question 14 (Intermediate)

Create a pricing section with three plan cards laid out side by side, with the middle card visually highlighted as the "Most Popular" option using a distinct border and a badge label.

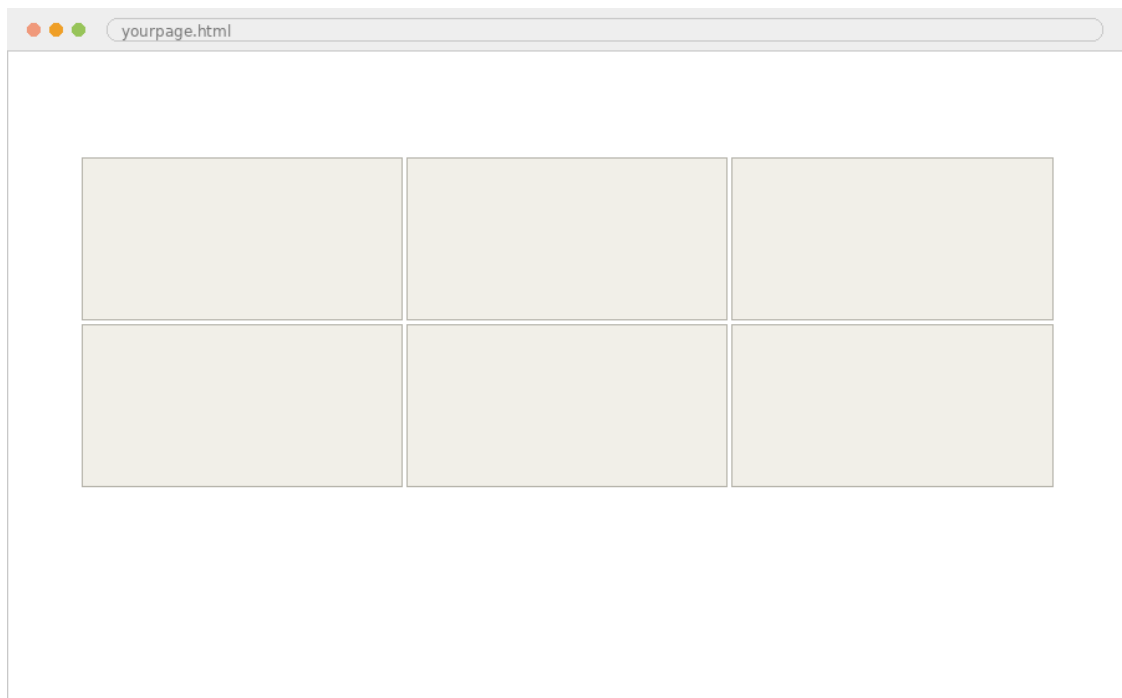

Expected Output

Question 15 (Intermediate)

Create a photo gallery of six evenly sized images arranged in rows and columns with no gaps between them.

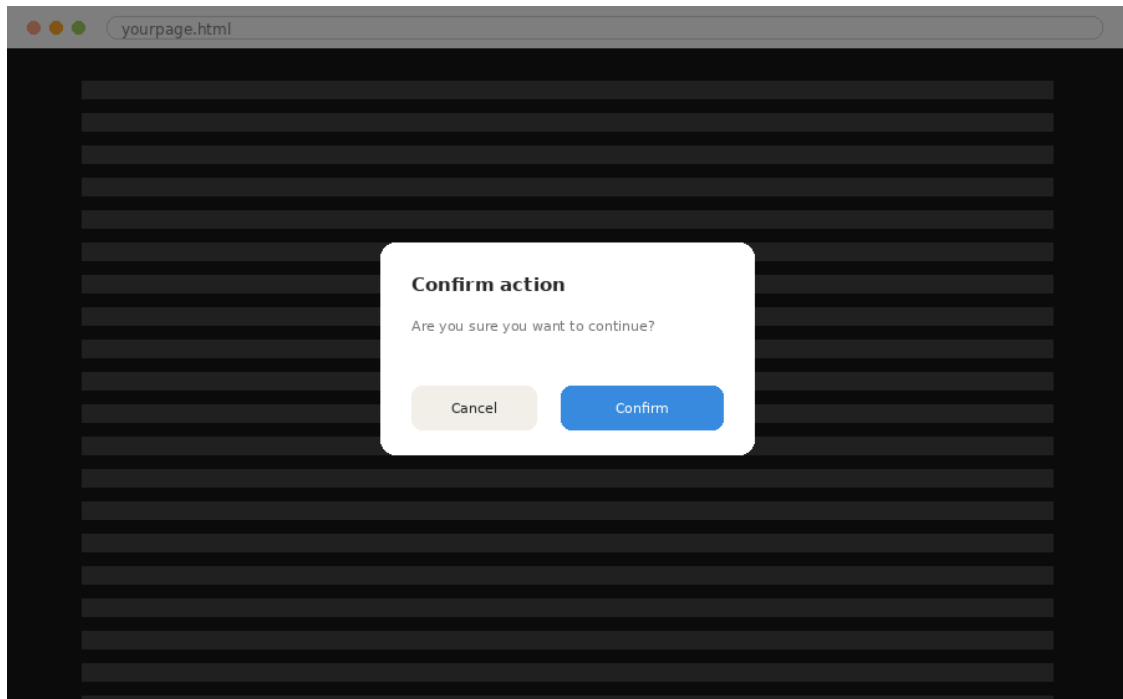

Expected Output

Question 16 (Intermediate)

Create a centered popup/modal box positioned in the exact middle of the screen over a dimmed background overlay.

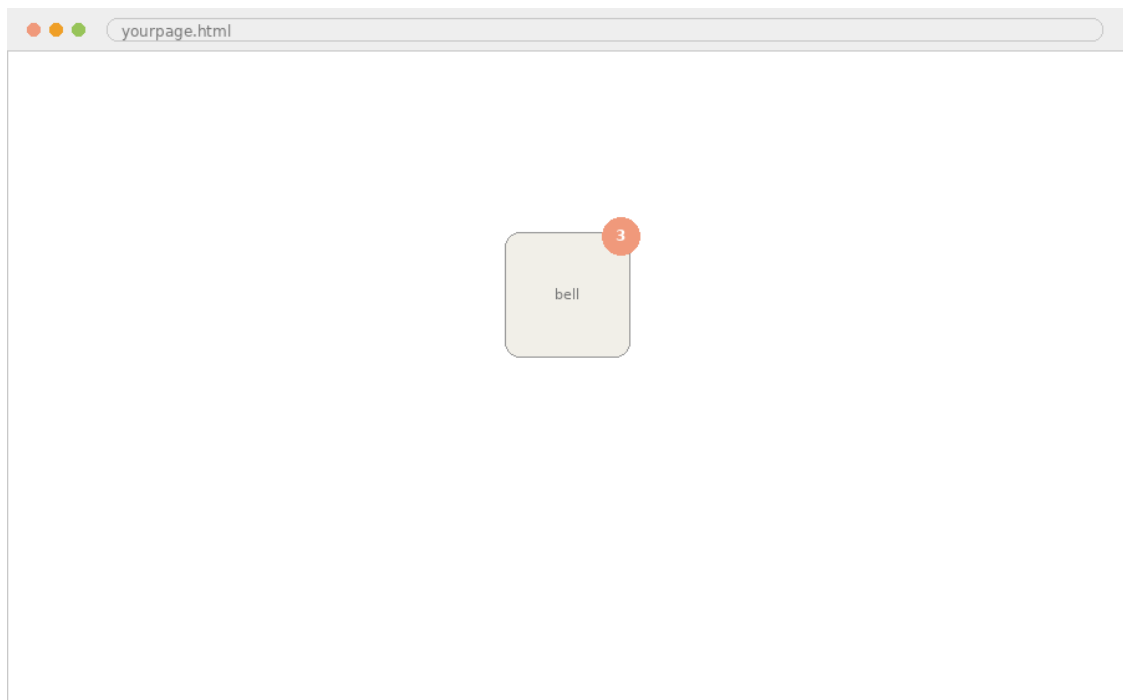

Expected Output

Question 17 (Intermediate)

Create a notification icon with a small circular badge overlapping its top-right corner to indicate unread notifications.

Expected Output

Question 18 (Intermediate)

Create a scrollable list box with a fixed height that shows a vertical scrollbar only when its content overflows.

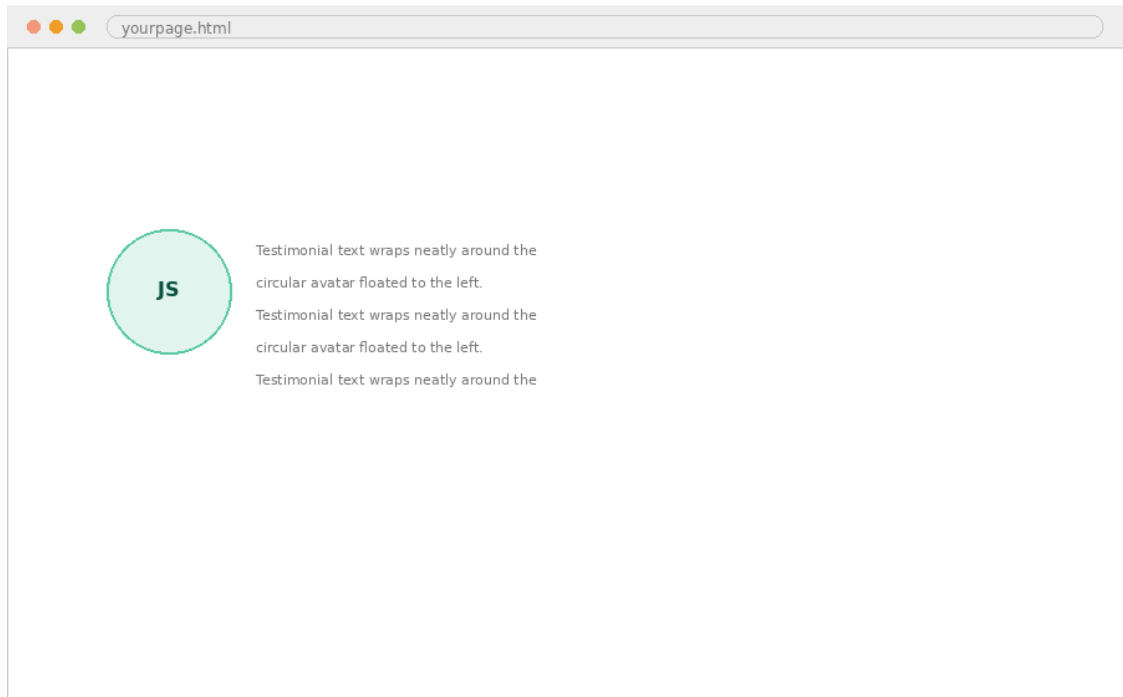

Expected Output

Question 19 (Intermediate)

Create a testimonial section with a circular profile photo floated to the left and the testimonial text wrapping around it.

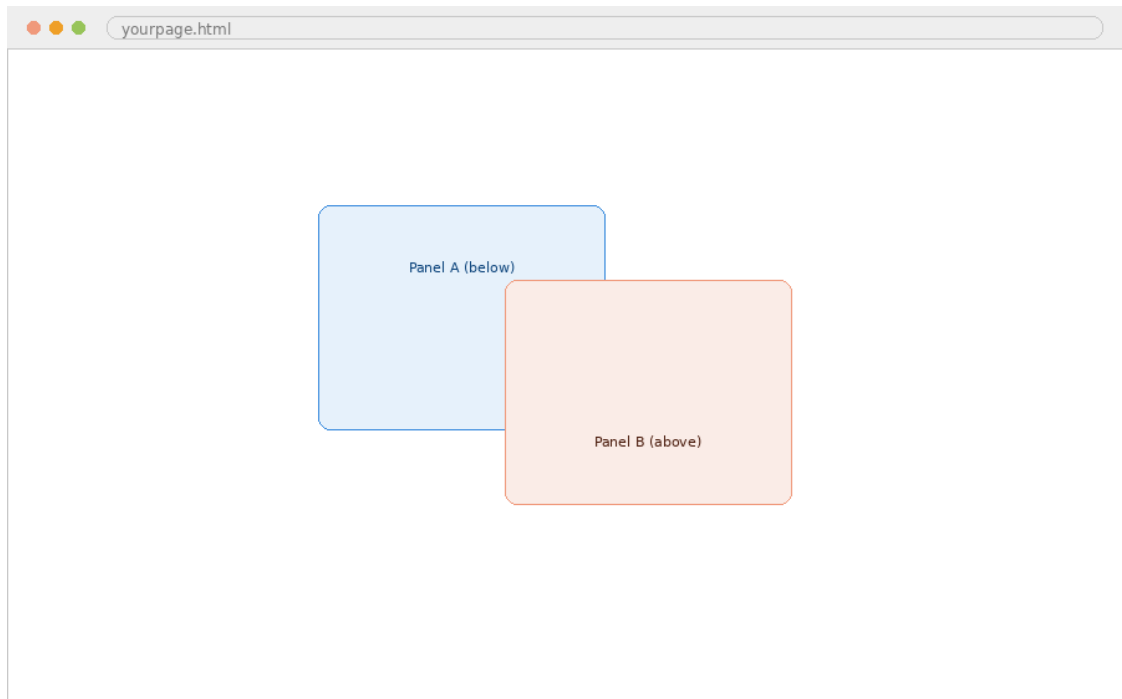

Expected Output

Question 20 (Intermediate)

Create two overlapping colored panels where one panel visibly stacks above the other in a specific order.

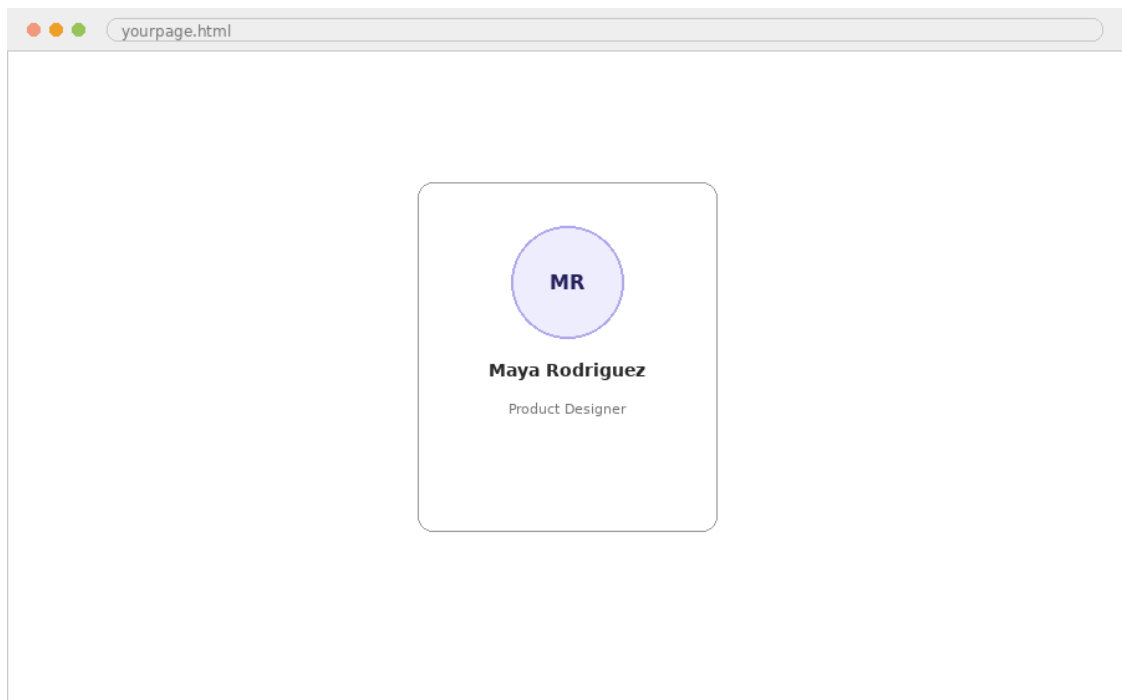

Expected Output

Question 21 (Intermediate)

Create a centered profile card containing a circular avatar, name, and short bio, centered both horizontally and vertically within its container.

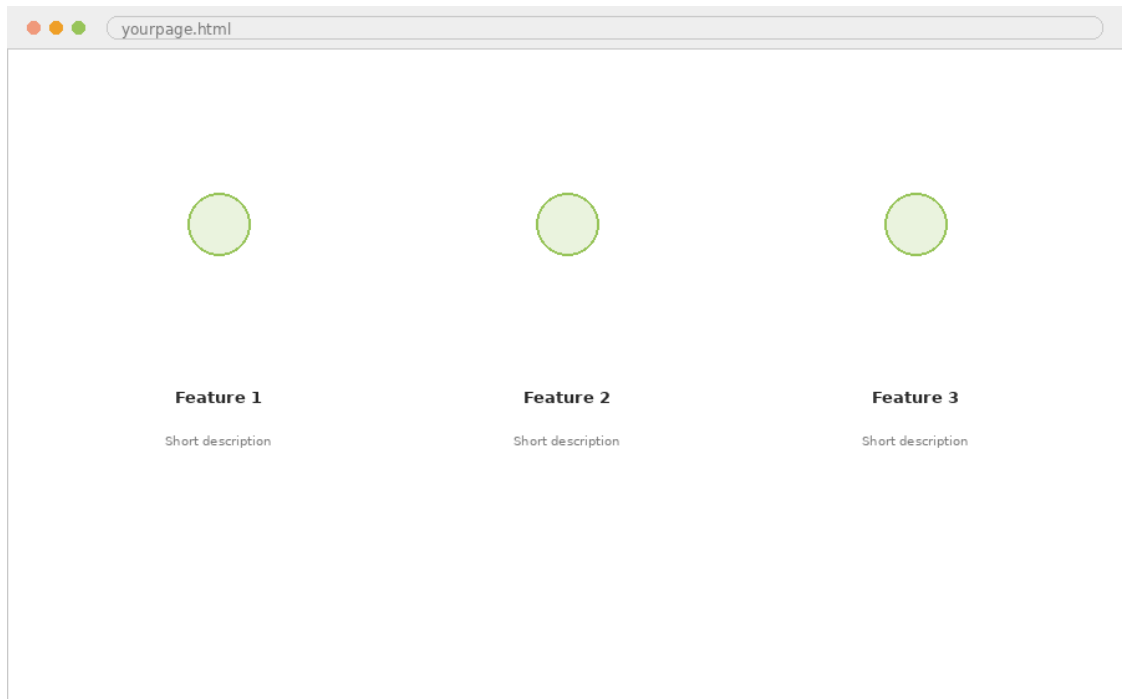

Expected Output

Question 22 (Intermediate)

Create a three-column feature section, each column containing an icon placeholder, a heading, and short descriptive text, evenly spaced and center-aligned.

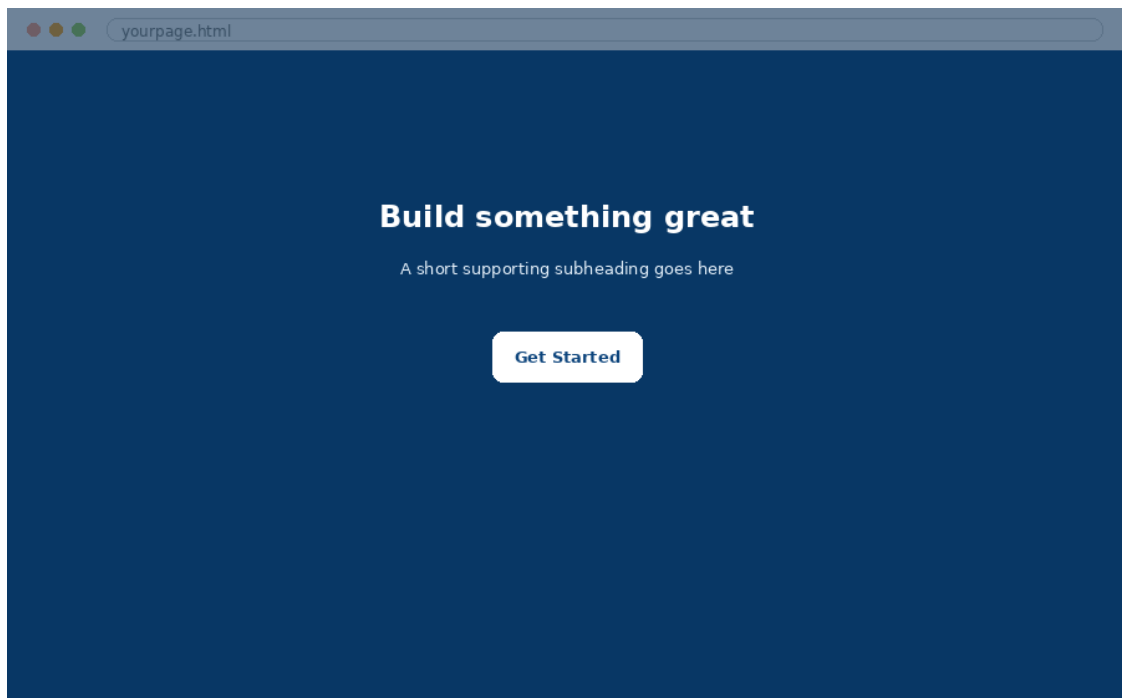

Expected Output

Question 23 (Advanced)

Create a full-width hero section with a background image, a semi-transparent colored overlay, and a centered heading, subheading, and button on top of it.

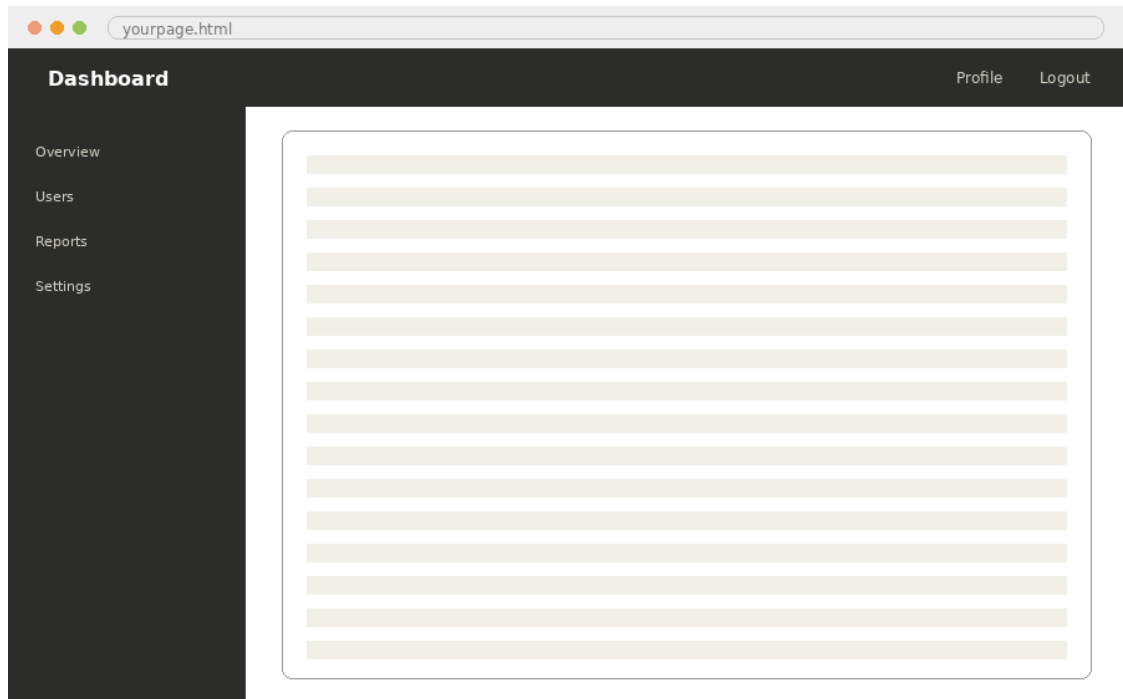

Expected Output

Question 24 (Advanced)

Create a dashboard shell layout with a fixed top navigation bar, a fixed left sidebar, and a main content area that scrolls independently of the sidebar and header.

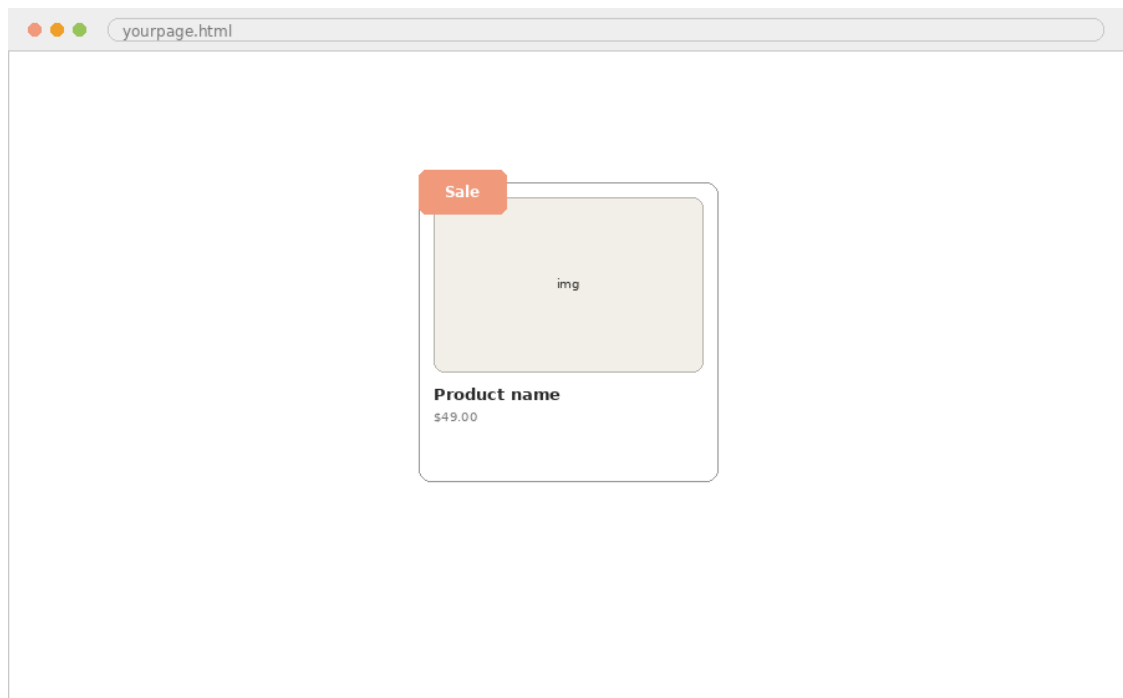

Expected Output

Question 25 (Advanced)

Create a product card that displays a "Sale" badge overlapping the top corner of its image, stacked above the image using layering.

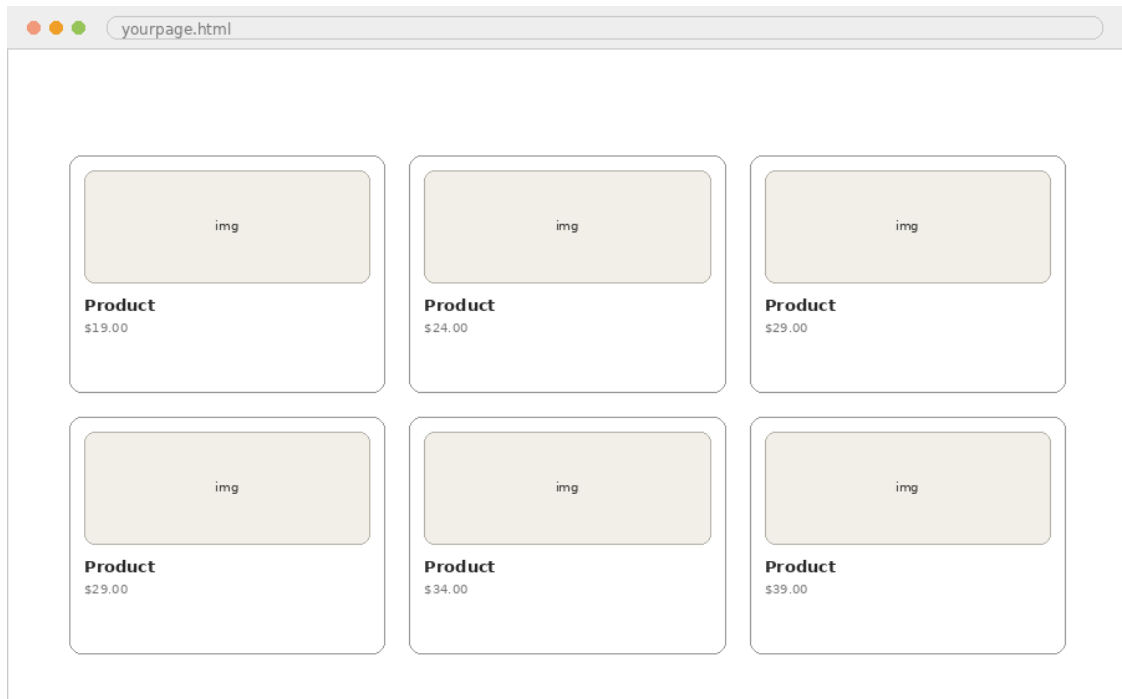

Expected Output

Question 26 (Advanced)

Create a grid of product cards, each containing an image, title, and price, arranged in evenly spaced rows and columns.

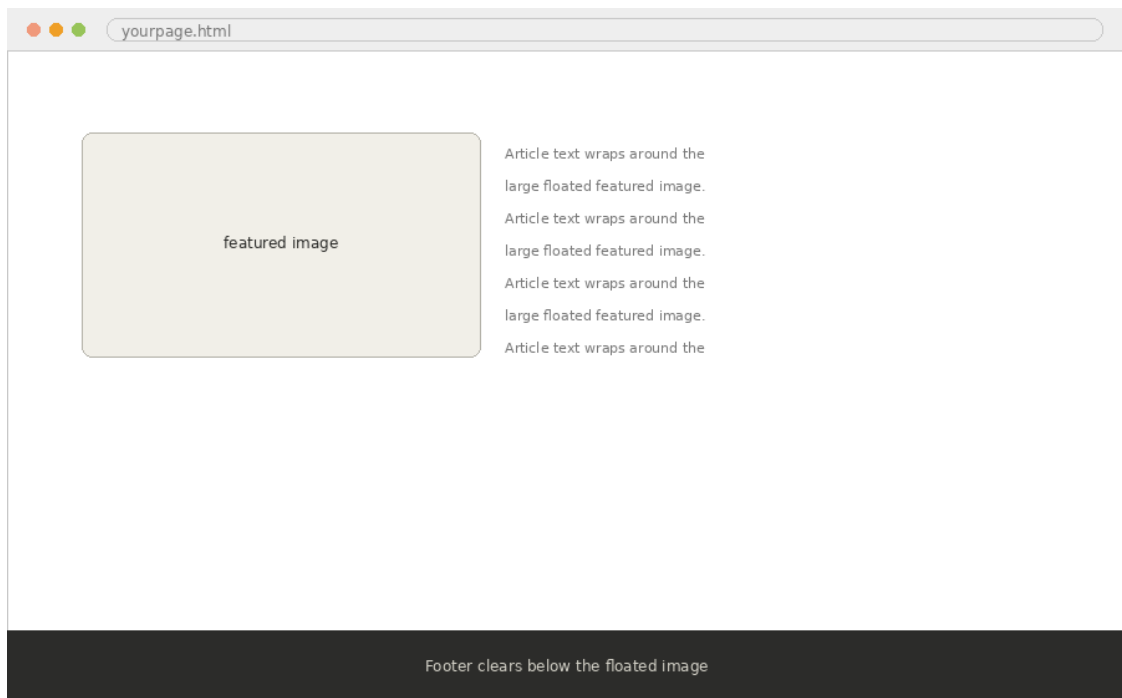

Expected Output

Question 27 (Advanced)

Create a blog article layout with a large featured image floated at the top-left of the article, text wrapping around it, followed by a footer that clears below the floated image.

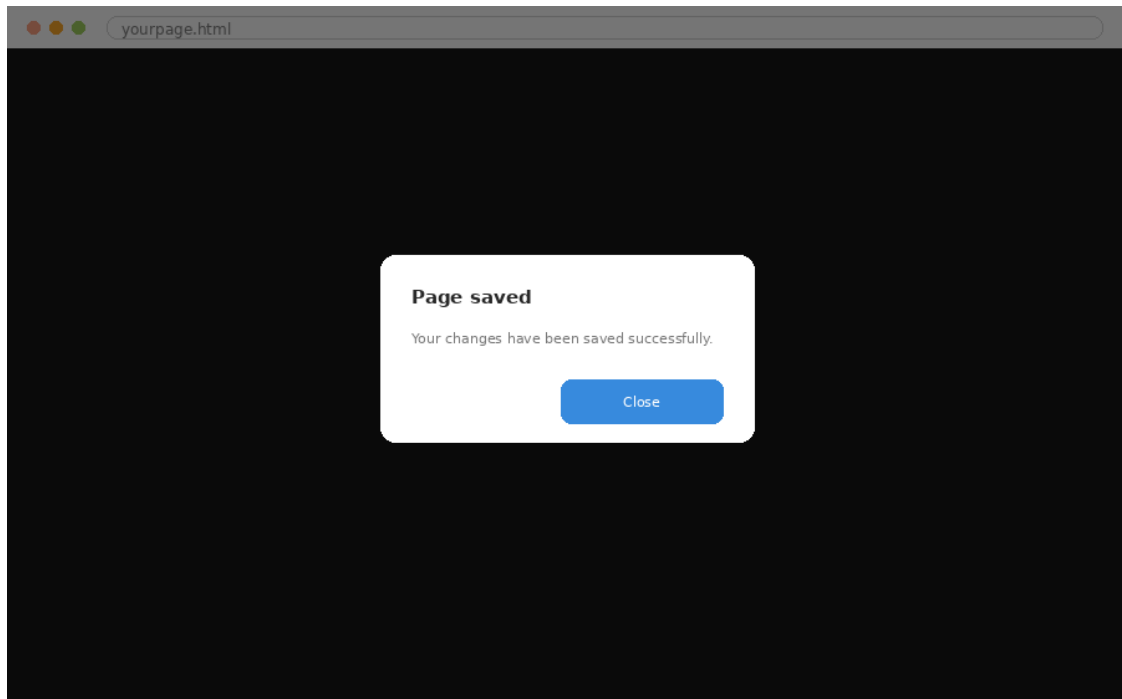

Expected Output

Question 28 (Advanced)

Create a full-page overlay with a centered confirmation dialog box that sits above a dimmed, fixed backdrop covering the entire screen.

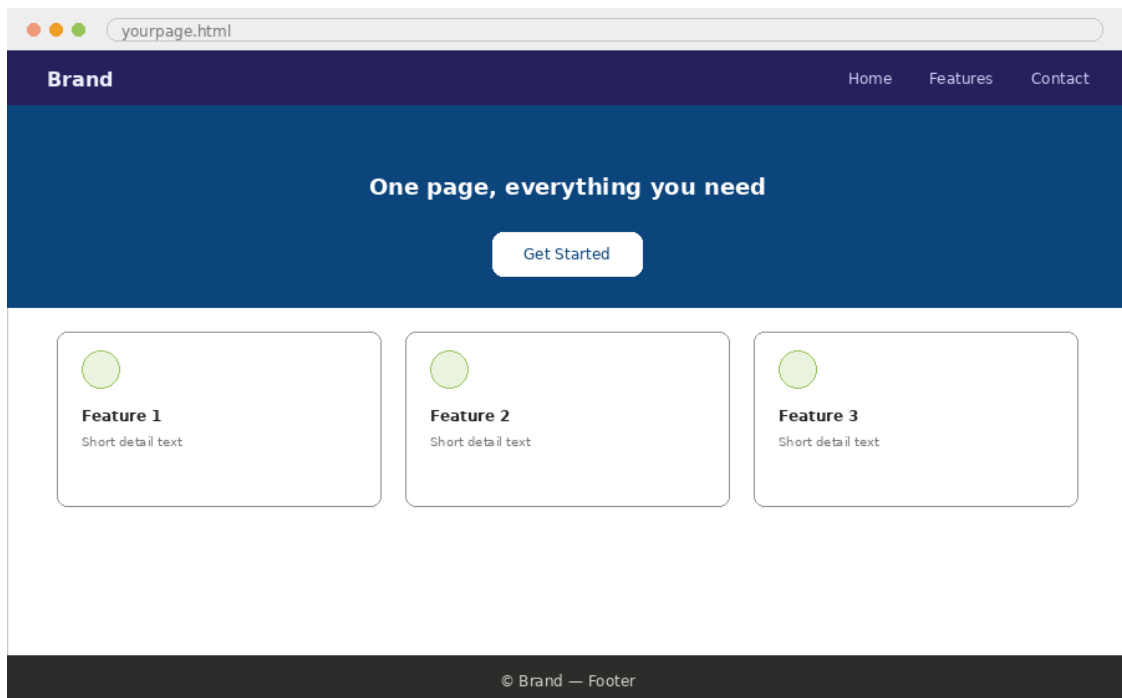

Expected Output

Question 29 (Advanced)

Create a complete one-page landing layout combining a fixed navigation bar, a full-width hero section, a three-column features section, and a footer.

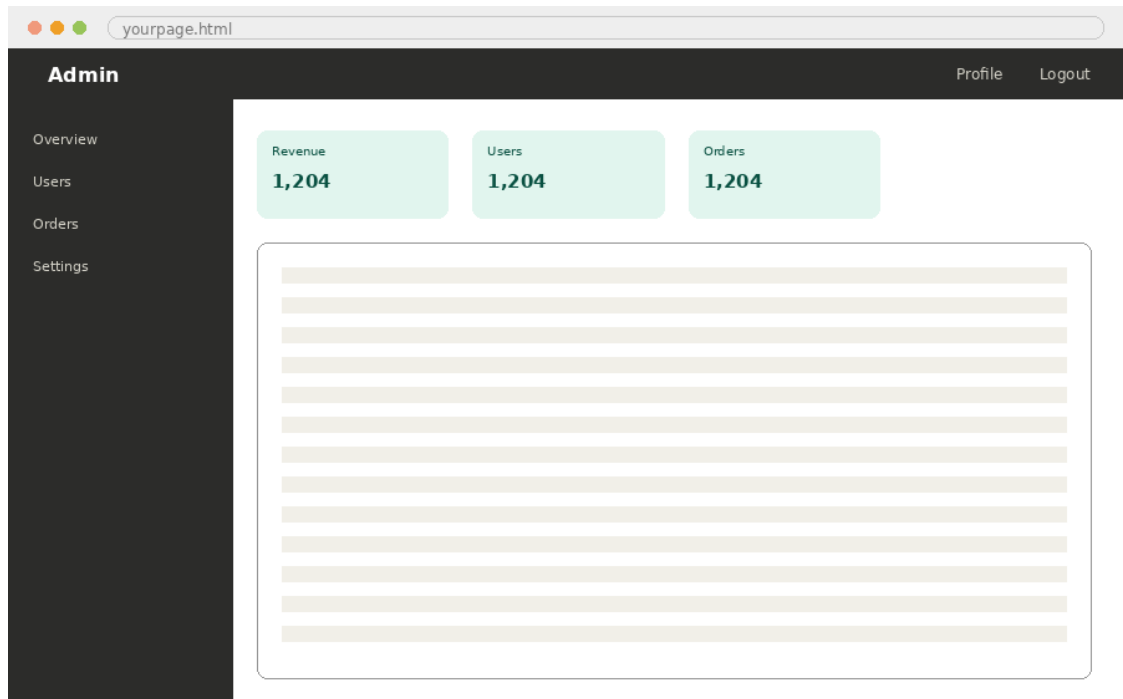

Expected Output

Question 30 (Advanced)

Create a complete admin dashboard combining a top navigation bar, a fixed sidebar, a scrollable main panel, and a row of summary cards inside it.

Expected Output
